

**INTERVIEW SUMMARY**

Applicants' representative Kirk Williams, Reg. 42,229, discussed the application and the outstanding Office action with Examiner Curtis A. Alia on November 22, 2010. Applicants greatly appreciate Examiner Alia's valuable time, and thought the discussion furthered examination. During this conversation, the overall idea was discussed, including that independent claim 1 recites the limitation that the protector itself registers with the detector to receive notifications of interest, such as disclosed in, but not limited to, FIGs. 3A-B and 4 of the original application. Applicants agreed to change the recitation of condition to "particular condition of interest" to emphasize this feature, and to file a Request for Continued Examination. Also, Applicants do wish to invoke 35 USC § 112, 6<sup>th</sup> paragraph for limitations beginning with "means for." Examiner Alias stated that he would reconsider the rejections in light of Applicants response.

Applicants believe that this paper fulfills the requirements of 37 CFR 1.133 and MPEP § 713.04. No exhibit was shown, and no demonstration was conducted.
